Crisis Recovery International

Mission Statement

It is our goal to provide material resources, labor, and assistance to local organizations to empower people around the world by establishing individual ability to be self-supporting, and **bring hope to one person, one family at a time.**

Our organization does not send money to anonymous recipients, but takes donated dollars to local communities and buys items in those communities that would be most useful to help provide assistance and start a family's recovery.

Crisis Recovery International is a nonprofit 501 (c)(3) organization and has no political or religious affiliation.

Travel to affected locations makes a difference because we:

- ◆ Provide items that are most needed and are culturally appropriate.
- ◆ Place money back into the affected economy by purchasing those items locally.
- ◆ Put local craftspeople back to work furnishing, repairing, and replacing needed items.
- ◆ Insert needed money into the economy by staying in local hotels and buying food from local merchants at the markets.
- ◆ Assist families' recovery by helping them become self-sustaining.
- ◆ Insure that the survivors who need the help receive it.
- ◆ **Want to travel with us?**
