

Vietnam is an area that has a tremendous need for volunteers. We have chosen a beautiful area where work and play will make your volunteer experience **unforgettable**.

Volunteers are especially needed to **teach children English**. Children are so eager to learn English, they flock around you to practice what few words they know. Without English skills, children will be unable find employment as adults. **Give these children a chance at life just by interacting with them in English!** They also need children's books in English.

Children and their teachers also need **computer skills**. If you can help by donating a laptop computer, or by showing a child how to navigate around the computer, we need you!

There is a tremendous need for dental attention for these children. If you are a professional dentist, your skills are badly needed in this area. You would have to take your own portable equipment, but the healing you can provide will be worth it.

We will pick you up on Sunday in Saigon, transport you to the village, have your hotel room waiting for you, work experience ready at the school, and return you to Saigon on Saturday. Go to our website for more details. It will be an experience you will never forget!

Your Hotel is clean, comfortable, and ready for you

Experience Vietnam by living, working, and playing in this exotic setting
